XIII Strength of the Department (maximum 150 words)

Faculty with complementary research areas that can support each other's teaching and research work. Good research and teaching laboratory facilities. Overlapping activities for research, PG and UG students providing an opportunity to work together and learn. ISRO experts as guest faculty for teaching specific technical courses Excellent teaching with an average feedback of more than 80% for the department.

XIV Weakness of the Department (maximum 150 words)

Some areas of Physics not represented, e.g. high energy physics, soft condensed matter physics. Faculty strength below optimal as regards teaching load

XV Challenges (maximum 150 words)

Visibility as a department is less than optimum. Need better projection at a national level to attract talent. Limited availability of talent for research (PhD and Postdoctoral fellows) We are a science department both AICTE and UGC guidelines, leading to duplication of procedural efforts.

XVI Opportunities (maximum 150 words)

Collaboration with ISRO on cutting edge technological problems related to applications of Physics. Thus there is a fruitful exchange between industry and academics. Collaborations with international institutions. Resources for futuristic quantum technology research.
