IV Review on Curriculum

Criteria	Reponse	Revision made during this academic year	Comments on curriculum, if any	Suggestions for improvement
Qualitative comment on the content of the curriculum	EXCELLENT	no	The curriculum covers exhaustively courses in the area of Aerospace Engineering. The dedicated dissertation project is a highlight	It is proposed to have more elective courses in the NEP based curriculum

V Review on Teaching, Learning and Evaluation

Sl. No.	Criteria	Response based on criteria	Comments	Suggestions
1	Any innovative teaching methods/aids adopted?	Yes Course projects, Term papers with CDIO philosophy	Students do practical exercises at ISRO Labs. This gives them an exposure of the desired learning in an industry environment	
2	Is any e-learning modules developed?	Yes New curriculum allows NPTEL courses for few elective credits	Moodle is used extensively in many courses	
3	Student evaluation procedure			
	Criteria	Response	Comments	Suggestions
	Course evaluation	Internal		
	Project evaluation	Internal External		
4	Evaluation components			

Criteria	Response	Comments	Suggestions
Theory	Continuous assesment and end semester exam, Continuous assesment and course project		
Lab	Continuous assesment and end semester exam, Continuous assesment and course project		
Project/ Internship/ Seminar	Mid term evaluaion and final evaluation		
5	Continuous Assessment Components		
Theory	Quiz I Quiz II Others - Assignments, projects and Tutorials and End semester evaluation		
Lab	Class exercise evaluation End Semester Examination Class exercise evaluation & End Semester Examination Lab projects		
6	Is there any remedial coaching to support weak performers?	Yes	
7	Is academic feedback from students taken regularly?	Yes	
8	What are the steps taken based on student's feedback?	Modulation of delivery of classes is modified based on the feedback	
9	Is Class committee meetings conducted?	Yes Meetings are conducted twice a semester after each Quiz	

VI Department faculty credentials

Sl. No.	Criteria	Response	Comments	Suggestions
1	Percentage of faculty with PhD	96		
2	No. of journal articles published	35		
3	No. of books published	0		

4	No. of book chapters published	6		
5	No. of invited talks/ conferences/ workshops attended			
6	No. of research projects funded by IIST			
7	No. of research projects funded through ASRG/IIST-ISRO/DoS	9		
8	No. of externally funded research projects like CSIR, DST, DRDO etc.	9		
9	No. of patents published/ awarded	4		A hassle free and quick filing process for patents may be adopted
10	No. of patents filed	0		
11	No. of faculty/student awards received	11		
12	No. of conferences/Workshops/ seminars/Colloquium Organized	4		
13	No. of conference paper published	19		
14	No. of visits made by the faculty/ student for research collaborations/invited talks/ conferences abroad	2		
15	No. of Industry collaborative projects	8		
16	No. of ISRO mission related projects/ activities	1		
17	No. of consultancy services entertained			

VIII Details of student co-curricular activities

Criteria	Response	Comments	Suggestions
Whether students are involved in extra curricular & co-curricular activities?	Yes	Students actively participate in Conscientia and Dhanak Festivals. Students also participate in several competitions held at the institute level	Selected students may be encouraged to participate in sports and arts competitions at different levels
Whether students are doing internship abroad?	Yes IIST funded Externally sponsored		

Whether students are doing internship at national academic institutes universities?	Yes IIST funded Self sponsored		
Whether students are doing internship at ISRO/ Industries/ R&D institutes?	Yes IIST funded Self sponsored		
Whether the department conducts outreach programs?	Yes		
Whether department has alumni activities?	Yes IIST Alumni association is promoted by the department		

IX Details of placement/ higher studies of students

Criteria	UG	PG	PhD	Comments	Suggestions
No. of students placed	44	26	0		
No. of students opted for higher studies	0	0	0		
No. of students cleared GATE/ SLET/ NET/ CSIR/ UGC/ Others etc.	0	0	0		

X Infrastructure in the Department

Sl. No.	Criteria	Response	Comments	Suggestions
1	No. of classrooms	8		
2	No. of seminar/ conference rooms	3		
3	No. of instruction labs	16		
4	No. of research labs	11		
5	No. of full-fledged e-learning classrooms	2		
6	No. of computing labs	3		
7	Is there any lab with potential for centre of excellence?	Yes, APLD Lab		
8	Is there any labs sponsored by external agency?			

9	Inter-disciplinary research facility	Yes, APLD, Engineering Workshop, Micro Raman and Metrology		
10	Is there any common amenities like restroom, recreation club, etc.?	Yes, Restroom and Clubs		
11	Is there any facilities for differently abled?	Yes, Ramps and toilets		
12	Is there any Department library?	Yes		

XII Additional Information

1.	Does the curriculum of each programme offered by the department provide the Programme Educational Objectives (PEOs)/Programme Specific Outcomes (PSOs) and Programme Outcomes (POs)?	Yes
2.	Do the courses offered in each programme by the department provide the Course Objectives and Course Outcomes (COs) written in clear terms?	Yes
3.	Give the status of adopting Choice Based Credit System (CBCS) in the programmes offered by the department	Implemented
4.	Give the status of adopting Objective Based Education (OBE) in the programmes offered by the department.	Implemented
5.	Satisfaction level of support of academic, administrative, and other support units of the institution	Excellent
6.	The status of taking feedback from stakeholders and expert groups for revision and design of curriculum of a programme.	Student Faculty Alumni Employers
7.	The list of extension programmes conducted by the department	Introduction to Space Technology to Military Officers
8.	List Faculty Development Programme conducted (any programme aiming at updating the knowledge of faculty of the department).	
9.	Does students take projects involving Field work/Survey. If yes, give the list.	
10.	The List of MoU and MoAs, that are currently operational during the year.	
11.	Detail the mechanism adopted to help academically disadvantaged students to cope with academic requirements	Additional office hour discussions, Make-up classes and additional tutorials
12.	Detail the mechanism adopted to help students who perform very much below the class averages	Additional office hour discussions, Make-up classes and additional tutorials

13.	The total grant/revenue generated/received from different agencies by the department conducting research projects/consultancy services during the year.	
14.	The suggestions to improve the efficiency and effectiveness of the IIST system.	

XIII Strength of the Department (maximum 150 words)

A strong Department of Aerospace Engineering thrives on a three-pronged approach: dedicated students, a research-focused faculty, and a supportive staff. Committed students bring a thirst for knowledge and a drive to excel, pushing the boundaries of the field. Research-oriented faculty members, guide students with their expertise and passion for innovation. Rounding out this team is a skilled staff that provides essential support, ensuring a smooth learning environment and access to necessary hardware and other resources. This powerful combination makes a dynamic atmosphere where ideas flourish, research thrives, and the next generation of aerospace engineers is empowered to take on the challenges of tomorrow.

XIV Weakness of the Department (maximum 150 words)

Despite its strengths, the department also faces some challenges. Its smaller size can limit course offerings and research opportunities compared to larger programs. Additionally, a lack of female faculty can create a less diverse learning environment and potentially discourage women interested in the field. Finally, the department's rigorous curriculum, while fostering excellence, might be difficult for some students, potentially hindering the programme with several backlog students. Addressing these weaknesses through hiring more diverse faculty, mentorship programs, and a focus on interdepartmental collaborations could propel the department to even greater heights.

XV Challenges (maximum 150 words)

The department has challenges in the form of student burn out, lack of flexibility in curriculum and perceived difficulty in the area of aerospace start-ups. As the demanding academic workload doesn't translate directly into desired careers, students are disillusioned to opt for other career paths. The department also has a very slow growth in terms of programmes and focused research centers. There is lack of faculty expertise in many areas of Aerospace Engineering. The limited intake of PhD scholars also pose some challenges. Some global aspects like environmental pollution of aerospace vehicles and immense costs associated with research, development, and manufacturing pose challenges to the department

XVI Opportunities (maximum 150 words)

The department offers a unique launchpad for aspiring aerospace engineers. First and foremost, students gain access to state-of-the-art facilities and laboratories in an environment in which research scholars work. This not only allows them to develop practical skills alongside theoretical knowledge but also develop a research and innovative attitude. IIST further bridges the gap between academia and industry through internship programs at ISRO centers. Here, students tackle real-world problems and gain invaluable experience working alongside leading scientists and engineers. Additionally, IIST fosters a collaborative environment where undergraduates can participate in research projects with faculty or even scientists from ISRO-affiliated institutions. This exposure to cutting-edge research ignites a passion for innovation and prepares students for future postgraduate studies or careers in the field. Beyond ISRO, the program's strong foundation opens doors to opportunities in various aerospace and mechanical engineering sectors across India and the globe.

XVII Any other details relevant to the department

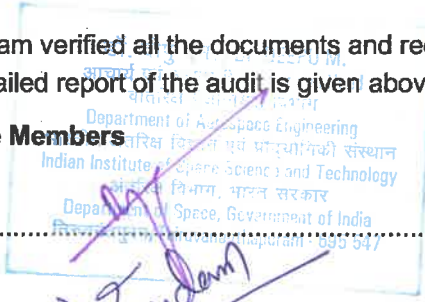

Final Recommendations

The department may consider hiring faculty with diversity in perspective More faculty may be hired with expertise in several areas which are not available in the institute at present. Enhance the PhD intake of the department. Devise a mechanism to have closer interaction with ISRO centers

On the day of visit, the team verified all the documents and records available in the department and evaluated the academic process. A detailed report of the audit is given above. The report is signed by the following:
